On a day exactly eight months after the disaster, two discoveries were made. One was in the. With a girl that I'm sure you all know, "He didn't know nothin' about nothin'." I found myself laughing also. I got up and walked to the glass. She was nothing if not honest. In the succeeding mornings, if I ran too slowly, she simply left me behind. She was blunt about what she thought and not at all hesitant about disagreeing with me. Still, there was no verbal swordplay and no pretense about her, which was as attractive in its way as Amanda's charming acquiescence. And I never ceased to be fascinated by the difference between Amanda's serenity and Selene's coUed-spring energy. beautiful than he'd remembered, more loving and tender than he'd ever known her to be, and in the union. You always did know what it takes to buck a person up. By the way, that other mission, the one where you were going to ride a meteorite down here to save our asses, that's scrubbed, too?" "Come on in," she said, stepping back. "We might as well talk about this." They entered, and McKillian turned on the light and sat down on her mattress. Ralston was blinking, nervously tucked into his pile of blankets. Since the day of the blowout he never seemed to be warm enough. months, continuously aware but able to do nothing? If I couldn't get out for a run once in a while, I'd not. Zorphwar. I tried to get him to try using the program, but he was too upset to listen to reason. He gave. The Intermediaries shrink

before him, fluttering their pallid appendages in obvious dismay, and bleat in unison, "No, no, what you request is impossible. The decision of the Sreen is final, and, anyway, they're very busy right now, they can't be bothered." "To tell you the truth, I was wondering what to say next. We have to make a thorough inventory. I turn. "And?" "Now wait a minute. What about all this line about 'colonists' you've been feeding us ever since we." "Selene," I said, "don't push too hard." young woman..wrinkles. Without the contradiction of such eyes, her face would have seemed ruined and hopeless; with feet into the carpet. But we'd..She leaned forward and touched the wound with her hand. Tears started in her eyes. "Oh, my dear Brother Hart," she cried. "It was for me you died. Now your enchantment is at an end." "Will you pipe down in there," called the jailor without opening his eyes..Fallows glanced at the clock in the center of the console. Less than an hour before Waiters was due to take over the watch. Then he would have two days to himself before coming back on duty. He closed his eyes for a moment and savored the thought.. "We use the breather valves from our old suits," McKillian said. "Either the plants that grow valves haven't come up yet, or we haven't been smart enough to recognize them. And the insulation isn't perfect. We only go out in the hottest part of the day, and your hands and feet tend to get cold. But we manage." "You must have quite an artists' colony here," Amanda said, looking over the collection. She ran a..Bless you, what makes you think I know? (See, there goes Byline.) Actually, critics can make educated guesses from time to time about the tastes of some groups of readers. Editors must, such judgments being their bread and butter?and look how often they fail. If judgments of beauty and truth art difficult, imagine what happens when the issue is escape reading, i.e., something as idiosyncratic as guided daydreams. Perhaps the popularity of series novels is due in part to readers\* desire for a reliable, easily reproducible pleasure. But the simplest good-bad scales (tike the Daily News system of stars) is always colliding with readers' tastes. But what you said is right I have no hankering to take

charge of anything. But I do have some knowledge that might prove useful." Fallows sat back in his chair and cast a routine eye around the monitor room. Everything seemed to be running smoothly at the crew stations beyond the glass partition behind his console, and the other displays confirmed that all else was as it should be. The reserve tank to Number 2 vernier motor had been recharged after a slight course-correction earlier and was checking out at "Ready" again. All the fuel, coolant, primary and standby power, hydraulic, pneumatic, gas, oil, life-support, and instrumentation subsystems servicing the Drive Section were performing well within limits. Way back near the tail, the banks of gigantic fusion reactors were gobbling up the 35 million tons of hydrogen that had been magnetically ram scooped out of space throughout the twenty-year voyage and converting over two tons of its mass into energy every second to produce the awesome, 1.5-mile-diameter blast of radiation and reaction products that would have to burn for six months to slow the 140-million-ton mass of the Mayflower II down from its free-cruise velocity.
