

MARINE ENZYMES AND SPECIALIZED METABOLISM PART B VOLUME 605

It's a word in the language of the Allking. His own name in his own language. In our base tongue. Where'd he come from, anyhow? Answer me that. "Anyone can make a fist and show a palm," said the tall woman, pleasantly. "But not everyone can fly to Roke. Or swim, or sail, or come in any way at all. So we must ask what brought you here." They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal, turned away scowling. Then she touched his hand very lightly. When he stroked the sleek black flow of her hair she seemed only to endure his touch, and he stopped. When he tried to embrace her she was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It wasn't the first night, nor the first nights, they passed together that gave either of them much pleasure or ease. But they learned from each other, and came through shame and fear into passion. Then their long days in the silence of the woods and their long, starlit nights were joy to them. The last heirs of the House of Hupun were a boy and girl, Ensar and Anthil. Wishing to end the line of the Kargish kings but unwilling to risk sacrifice by shedding royal blood, the Godking ordered these children to be stranded on a desert island. Among her clothes and toys the princess Anthil had the half of the broken Ring brought by Erreth-Akbe, which had descended to her from Thoreg's daughter. As an old woman she gave this to the young wizard Ged, shipwrecked on her island. Later, with the help of the high priestess of the Tombs of Atuan, Arha-Tenar, Ged was able to rejoin the broken halves of the Ring and so remake the Rune of Peace. He and Tenar brought the healed Ring to Havnor, to await the heir of Morred and Serriadh, King Lebannen. Leashed like a dog, he walked along, sullen and shivering with sickness and rage. He stared around. "I'll show you some. That's what Gelluk's after. The ore of watermetal. Watermetal eats all the. The witch still said nothing. They walked along in the darkness side by side. At last, in a. been more than two hundred. dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell. wizardries. Enlad of the Kings, and bright Ea, eldest of isles! Surely we'll find allies there". see. Nobody should ought to meddle with sorcery that ain't born to it. Nor with sorcerers. You. was nearly inaudible, a rough whisper. teller came to tell it. "I don't know," the Herbal said. "I can only tell you that when I'm with him, when I'm in the Great House, I feel that nothing can be done but what has been done. That nothing will change. Nothing will grow. That no matter what cures I use, the sickness will end in death." He looked around at them all like a hurt ox. "And I think it is true. There is no way to regain the Equilibrium but by holding still. We have gone too far. For the Archmage and Lebannen to go bodily into death, and return - it was not right. They broke a law that must not be broken. It was to restore the law that Thorion returned." Irian drew a deep breath and looked at him eye to eye as they sat there. "Only in dark the light," she said. between them moved long, silent bodies, and people emerged from these through rows of. When he added that little questioning "eh?" or "neh?" to the end of what had seemed a statement it always took her by surprise. She said nothing. She thought he was clever and quite handsome, but she didn't think much about him, except for what. When he saw it, faint and green above the misty sea, he cried out - the men in the ships heard the dragon scream - and flew on faster, leaving them to follow him to the conquest. glass was not glass at all; the impression I had was of sitting on inflated cushions, and, looking. She knew he was right. "They're men of the Hand, Dory, one short and pretty and one tall and proud, and they say they're seeking papers. I know you had some once, though you may not now. They've nothing you need in their pack, but it might be they'd pay a bit of ivory for what they want. Is it so?" She turned her bright eyes on Tern, and he nodded. Her father's ancestors had owned a wide, rich domain on the wide, rich island of Way. Claiming no. beautifully styled, semitransparent, with . long, delicate arms. Without asking a thing, it passed. round the mountain. He's there now. "at Dulse's request that the wizard had to laugh. "Aha. Well, in a sense -- yes. But you can undress on the beach." the water could be drunk unless you boiled it an hour, except what came from the wells, hers here. She interrupted. "I thought you were from Roke." "If somebody could talk to her people there, they'd get word to her. Her brother, Littleash, used to conic to the city every year or two." The girl motioned them to come in. Crow chose to wait outside. The room was high and long, with. "No. I'll write him," Diamond said, in his new, level voice. "Why can't I give myself my own true name?" Dragonfly asked, while Rose washed the knife and her. She nodded shortly, frowning her black brows. hands, burned his tongue away when he tried to speak. "Why don't you answer?" .file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (109 of 111) [2/5/2004 12:33:32 AM]. He was half asleep, sitting on the ground in the shade by the barracks, the smell of the logs stacked by the roaster tower bringing him a memory of the work yards at home, the fragrance of new wood as the plane ran down the silky oak board. Some noise or movement roused him. He looked up and saw the wizard standing before him, looming above him. separately. They did not even hold it against me that I got Olaf to rebel (because if it had not been. with counters. When we approached one of these, seats emerged from the wall on either side of. There were other people on the hill, he saw now, many others, men and women, children, living and spirits of the dead; many, many of them. He was terrified of them and cowered, trying to make a spell that would hide him from them all. "You have been a witch, Irian?". "Is it a long way from where you live, sir?" she asked. "Anywhere. Run away." dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no. times-poor, coarse food, but he ate it all, slowly, valuing it. Come evening the brother went off. "It's not my word, it's Waris's. But they've refused. They want the Rule of Roke to separate men. of thirty usually have children. And there were. . . other considerations." "Don't move," in a low, amicable voice. He sensed great power in the young man, enough that he was. among the women who practiced magic. incalculable. He was amazed when, not long after, she said to him, "I'll be going to the Grove. galley he scented something. "Well, well," he said, "who's this?" He walked to the helm and

put. "You're singing," she said and lightly tugged at me. We walked among the tables and I not seen him for over a year, having been busy; he was always busy in Gont Port, doing the. "He was only a child, and the wizards of that household can't have been wise men, for they used little wisdom or gentleness with him. Maybe they were afraid of him. They bound his hands and gagged his mouth to keep him from making spells. They locked him in a cellar room, a room of stone, until they thought him tamed. Then they sent him away to live at the stables of the great farm, for he had a hand with animals, and was quieter when he was with the horses. But he quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got the stable boy back into his own shape, they tied up the child again, and gagged his mouth, and put him on a ship for Roke. They thought maybe the Masters there could tame him." what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. Hold them," she said. "The true art prevails over the false. The pattern will hold," Ember said, frowning. She reached out the poker to gather together her namesakes in the hearth, and with a whack knocked the heap into a blaze. "That I know. But our lives are short, and the patterns very long. If only Roke was now what it once was- if we had more people of the true art gathered here, teaching and learning as well as preserving-" was gone, and there was nothing there but the woman standing on the hill path and the tall man. "I used him to help me get here and to tell me what to say to the Doorkeeper," Irian said. "I'm Gelluk's white face had gone whiter; his jaw trembled a little. He stood up, suddenly, as he. That is not what the otter was thinking as it swam fast down the Yennava. It was not thinking anything much but speed and direction and the sweet taste of river water and the sweet power of swimming. But something like that is what Medra had been thinking as he sat at the table in his grandmother's house in End-lane, talking with his mother and sister, just before the door was flung open and the terrible shining figure stood there..his superiority. He only wished there were someone to repeat her sayings to, one of his old, pleased with himself. When the ship was launched (and all seemed well with her, for her fault. They walked past the roaster tower, past the old shaft and the new one, on into the long valley where Otter had taken Licky the first day he was there. It was late autumn now. The shrubs and scrubby grass that had been green that day were dun and dry, and the wind rattled the last leaves on the bushes. To their left a little stream ran low among willow thickets. Mild sunlight and long shadows streaked the hillsides..which all of them did..Some people of great innate and trained power are able to find out the true name of another, or a glimmering track behind it a moment in the air above the hearth stone. "Now I'm off to the cow. seemed a bit crude. Heavy-handed ... She didn't say where she'd learned it. Here, of course ...happened. I believe this isn't very different from what historians of the so-called real world do..So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. The girl Dory, who as they said taught her teachers, became the mistress of all healing arts and the science of herbals, and established that mastery in high honor at Roke..The breeze was moving again slightly; she could hear a bare whispering among the oaks. "A little," she said..the connotations of the rune translated into Hardic. The names of commonly used runes such as PIRR. "I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind." back home and a lot of things had changed. Sex. Money. Transit. Violence. There's no more. I started toward her. She raised her hands..political center of the country. Erreth-Akbe's visit seems to have coincided with the final shift. it. "My mastery is here," the boy had said, but it went deeper than mastery. That, perhaps, was. The Herbal still hesitated. "This lady is not of our council," he said at last..by refugees fleeing the western lands and by interruptions to shipping and trade, since the. "We'll have to see," said Alder, the next day, "if my beasts are cured. If they make it through the winter, see, we'll know your cures all took, that they're sound, like. Not that I doubt it, but fair's fair, right? You wouldn't ask me to pay you what I have in mind to pay you, would you now, if the cure didn't take and the beasts died after all. Avert the chance! But I wouldn't ask you to wait all that time unpaid, neither. So here's an advance, like, on what's to come, and all's square between us for now, right?" Gelluk was almost wholly absorbed in his own vision, but since Otter's mind and his were connected, he saw something of what Otter saw. He stopped, gripping Otter's arm. His hand shook with eagerness..their listening silence, and rested there for days, and came back to him changed..into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the..what had become of their power. They didn't know.. "I'm no good there, you see, Ged," he said. "I am, here. If they'll let me do the work." He looked again at Gift, and Ged did also. She looked at them both.. "Is it?" he said.. "Hu-hu-hu," said the owl, under her window, and then it said, "Darkrose!" Startled from her misery, she leaped out of bed and opened the shutters..flowers. I put my hand to my nostrils. It smelled like a thousand scented soaps at once.. "Like the Library of the Kings," said Crow, dreaming of lost glories.. "More a mater of getting in with it, I think." The old man was burying the core of his apple and..beginning of time and made all beings by naming them in the Language of the Making-the language in. "This is better, Thorion," he said, but he was weeping.. "Your dad says not." He was mad, and she didn't know what possessed her to let him stay, yet she could not fear him or. He saw her now more clearly than he had seen her in the tower. He saw her more clearly than he had ever

seen anyone. He saw the thin arms, the swollen joints of elbow and wrist, the childish nape of her neck. It was as if she was with him in the room. It was as if she was in him, as if she was him. She looked at him. He saw her look at him. He saw himself through her eyes..nothing of these matters and have nothing to do with them.."Nothing.
